12 European CME credits
Welcome to MEET 2015
It is a great pleasure to welcome you on the French Riviera, in the beautiful city of Nice with its unique light, refined lifestyle and multiple perfumes and flavors.

More videos, clinical cases, interactivity and audience discussions will ensure that MEET 2015 offers a multidisciplinary educational platform.

Over the two-day congress, our wide-ranging, interactive program will include the whole range of endovascular techniques and procedures and focus on femoropopliteal and BTK disease, thoracic aortic dissection, EVAR challenges and carotid artery stenosis. Do not miss the interesting work-in-progress and case reports presented by the associate faculty members, including trainees, on Tuesday afternoon.

Nurses and technicians will have the opportunity to participate in an intensive, one-day, special program tailored for them in a parallel room on Monday.

Take your time to visit the exhibition and discover the Industry news as it is only thanks to their precious help that we managed to organize this congress.

As usual the plenary sessions will be broadcast live on Internet. Do tell your colleagues at home.

Again, welcome to the capital City of the French Riviera, we look forward to building endovascular synergies with you and our outstanding international faculty.

The MEET Directors

M. Amor, N. Cheshire, E. Ducasse, M. Lachat, N. Mangialardi, P. Schneider, I. Van Herzele

COURSE DIRECTORS 2015
Max AMOR, Essentiel-Nancy, France
Nicholas CHESIRE, London, United Kingdom
Mario LACHAT, Zurich, Switzerland
Nicola MANGIALARDI, Rome, Italy
Peter SCHNEIDER, Honolulu, USA
Isabelle VAN HERZELE, Gent, Belgium

HONORARY DIRECTORS
Patrice BERGERON, Marseille, France
Pietro CAO, Rome, Italy
Luigi INGESE, San Donato Milanese, Italy
Thomas SCHINGER, Munich, Germany
Klaus MATHIAS, Hamburg, Germany
Dieter RAThEL, Spandorf, Germany

SCIENTIFIC COMMITTEE
Jérôme BRUNET, Avignon, France
Massimiliano DI PRIMIO, Le Chesnay, France
Roberto FERRARESI, Milan, Italy
Yann GOUEFIC, Nantes, France
Ian LOFTUS, London, United Kingdom
Jan LOFTUS, London, United Kingdom
Richard MCWILLIAMS, Liverpool, United Kingdom
Sonia RONCHEY, Rome, Italy

FACULTY
Flavio AIROLDI, Milan, Italy
Max AMOR, Essentiel-Nancy, France
Patrice BERGERON, Marseille, France
Jérôme BRUNET, Avignon, France
Jean BRINKWALD, Köln, Germany
Jacques BUSQUET, Saint-Cloud, France
Nicholas John W. CHESIRE, London, United Kingdom
Jacques CONSTANTIN, London, United Kingdom
Raphael COSCAS, Boulogne Billancourt, France
Jean-Paul DE VRIES, Nieuwegein, The Netherlands
Koen R. DELGOESE, Denemarken, Belgium
Massimiliano DI PRIMIO, Le Chesnay, France
Eric DUCASSE, Bordeaux, France

Roberto FERRARESI, Bergamo, Italy
Mauro GARGIULO, Bologna, Italy
Yann GOUEFIC, Nantes, France
Éric DUCASSE, Bordeaux, France
Luigi INGESE, San Donato Milanese, Italy
Éléxène JEAN-BAPTISTE, Nice, France
Xiaoping JIANG, Beijing, China
Pirot KRASZK, Regensburg, Germany
Tilo KOBEL, Hamburg, Germany
Ralf R. KOVOLNICH, Düsseldorf, Germany
Mario L. LACHAT, Zurich, Switzerland
Thomas LARZON, Omsk, Sweden
Ian LOFTUS, London, United Kingdom
Klaus MATHIAS, Hamburg, Germany
Nicola MANGIALARDI, Rama, Italy
Armando MANSILHA, Porto, Portugal
Klaus MATTHIAS, Hamburg, Germany
Richard MCWILLIAMS, Liverpool, United Kingdom
Davide PACINI, Bologna, Italy
Andreas PETROVA, Bonn, France
Raffaele PULLI, Firenze, Italy
Enrique PURAS MALLAGRA Y, Madrid, Spain
Zoran RANCIC, Zurich, Switzerland
Vincent RIAMBAU, Barcelona, Spain
Sonia RONCHEY, Roma, Italy
Antoine SAUGUST, Toulouse, France
Thomas SCHMITZ RIXEN, Frankfurt/Main, Germany
Peter SCHNEIDER, Honolulu, USA
Francesco SETACCI, Rome, Italy
Carlo SETACCI, Siena, Italy
Kenneth SNYDER, Suite Buffalo, USA
Johnny STEUER, Upsalla, Sweden
Fabien THAVEAU, Strasbourg, France
Rao Srinivasa VALLABHANENI, Liverpool, United Kingdom
José Luis VARGAS, ZURICH, Switzerland
Isabelle VAN HERZELE, Gent, Belgium
Frank J. VEITH, Riverdale, USA
Pierfrancesco VEROUX, Caltanita, Italy
Fabio VERZINI, Perugia, Italy

CASE REPORTS AND RECORDED VIDEO CASES

EthicalMedTech
14.00 Thoracic pathology
Moderators: J. Busquet, F. Veith, M. Lachat, N. Mangialardi

Dissection
14.00 We do treat all - and why, N. Cheshire
14.08 I do treat when appropriate, J. Steuer
14.16 The false channel occlusion technique, T. Kölbl
14.24 TEVAR for chronic dissection, I. Loftus
14.32 News from imaging will change our attitude, L. Maene
14.40 Discussion

Descending aorta
14.50 TEVAR European guidelines, V. Rambau
14.58 How I fix endoleak in TEVAR, P. Kasprzak
15.06 Clampless sutured anastomosis technique, Z. Rancic
15.14 Long-term results for TEVAR after BAI, R. Vallabhaneni
15.22 Access vessels challenges and best access route, F. Setacci
15.30 Discussion

15.45 Highly complex lesions in femo/pop. What do I learn from my daily practice?
15.45 Clinical case review, J. Brunet
15.57 Clinical case review, M. Amor
16.09 Discussion

16.15 Coffee break in the exhibition hall 🍵

16.45 Femoropopliteal disease - Part 1
Moderators: Y. Gouëffic, K. Deloose, P. Schneider, C. Setacci

Strategy
16.45 Anti-platelet therapy; who needs it and what to prescribe, K. Deloose
16.53 Popliteal artery aneurysm - What is the best mode of treatment?, T. Schmitz Rixen
17.01 Radial access for femoropopliteal lesions: tips and tricks, R. Coscas
17.09 Closure devices: treatment of complications, J. Van den berg
17.18 Discussion

TASC A/B femoropopliteal lesions
17.20 Is connected stent the good option for TASC A/B SFA lesions? E. Ducasse
17.30 Discussion

Debate. TASC A/B femoropopliteal lesions treatment
17.35 Stent should be the first line treatment, J-P. de Vries
17.43 Two-year results of a low-dose drug-coated balloon for revascularization of the femoropopliteal artery (ILLUMENATE FIH Trial), Y. Gouëffic
17.51 DES should be the first line treatment, J. Van Den Berg
17.59 Discussion
18.05 Are current stents ready for the « surgical landing-zones »? L. Maene
18.13 Lecture from China: Selective stent placement versus balloon angioplasty for renovascular hypertension caused by Takayasu Arteritis: two-year results, X. Jiang

18.21 End of the sessions
20.00 Official dinner (page 7)
### Carotid Occlusive Disease - Are we ready for the next breakthrough?

**Moderators:** M. Amor, P. Schneider, K. Snyder, L. Inglese

- **08.15** State-of-the-art: promising next steps, K. Mathias
- **08.30** What the data is telling us: the first 30 days need to be safer after any carotid repair, but how? C. Setacci
- **08.38** New stent designs: will they improve results? P. Schneider
- **08.46** New access technologies, N. Cheshire

#### Controversy

- **08.54** Best medical therapy has improved: but how much, and will BMT be good enough to replace repair? I. Van Herzeele
- **08.59** Carotid endarterectomy remains the treatment of choice. The data proves it and stents cannot compete, A. Mansilha

#### Discussion

- **09.09** How should we manage acute in-stent thrombosis during femoropopliteal recanalization? Y. Gouëffic
- **09.38** Challenging case: the worst complication of the year. Can you help me problem solve? M. Amor
- **09.54** New evidences for hypogastric artery preservation during EVAR, E. Jean-Baptiste
- **09.59** Tips and tricks for the CERAB technique, K. Deloose

### Femoropopliteal disease - Part 2

**Moderators:** Y. Gouëffic, K. Deloose, P. Schneider, C. Setacci

#### TASC C/D femoropopliteal lesions

- **11.15** Heparin bounded graft could challenge endovascular repair for TASC C-D lesions? R. Pulli
- **11.23** Intra versus subintimal routes to treat femoropopliteal CTO lesions: techniques and results, F. Thaveau
- **11.31** Endovascular treatment of occluded popliteal artery aneurysm, P. Veroux
- **11.39** Discussion

#### Managing complications

- **11.45** How should we manage acute in-stent thrombosis during femoropopliteal recanalization? Y. Gouëffic
- **11.53** Recurring in-stent restenosis: what is the best management? E. Ducasse
- **12.01** Acute popliteal endograft occlusion: frequency and management, E. Puras Mallagray
- **12.09** Panel discussion

### Moving toward Drug Eluting Solutions

**Moderator:** M. Amor

- **12.15** Clinical results Majestic trial, K. Keirse
- **12.35** Experience of drug eluting technologies, M. Sibé

### The A-Z of A-I disease

**Moderators:** R. McWilliams, I. Van Herzeele

#### Access

- **14.00** How do PEVAR? – Video, Z. Rancic

#### Imaging

- **14.08** Overlay and dose reduction during aortic procedures, J. Constantinou

#### AAA

- **14.16** Will EVAS replace EVAR? I. Loftus
- **14.24** EVAS and EVAR: What are the differences in case selection, deployment and surveillance? F. Torella
- **14.32** Single sided access for EVAR: the future, M. Lachat
- **14.40** Review of the literature on type II endoleaks, R. Pulli
- **14.48** Late endoleak management – case discussions – MCQ’s, J. Van Den Berg
- **14.56** State of the art – How I do FEVAR? P. Kasprzak
- **15.04** Troubleshooting after FEVAR, R. Vallabhaneni
- **15.12** Iliac branched devices versus Iliac branched endoprosthesis – differences in selection and usage, F. Torella
- **15.20** The lessons I have learned from RCT on RAAA management, F. Veith
- **15.28** Tips and tricks for the CERAB technique, K. Deloose
- **15.44** Is the endovascular world ready for 3D-printing and... vice versa? L. Maene

### Associate Faculty and trainees program

**From start to excellency**

**Jury:** N. Cheshire, P. Bergeron

- Oral presentations in the auditorium, listed on page 8
- ePosters presentations in the exhibition hall, listed on page 9

### Awards ceremony & adjournment

**MEET Official dinner**

**Radisson BLU Hotel**

**Monday June 8 - 20.00 till midnight**

**Limited seats**

**Participation fee:**

- **60 € VAT incl. per person** (buffet dinner)
- **Music Entertainment**
- **Dress code:** casual chic
Oral presentations

- Long-term performance of closed cell design self-expanding stainless steel stents in the treatment of Cockett’s Syndrome, Luis Loureiro
- Loss of kidney function after endovascular treatment of peripheral arterial disease, Lars Bolt
- Novel innovative endovascular technique to salvage acute limb ischemia in Hostile Grain, Virendersingh Shecrain
- Management of long flush superficial femoral artery occlusions with ipsilateral antegrade common femoral artery access, Amr Aborahma
- Percutaneous imaging guided techniques of PV patency and integrity management - catheter directed local thrombolysis, stenting, endoluminal RFA & angioplasty or endoluminal RFA & stenting, Malkhaz Mizandari
- Neurocognitive functioning after carotid endarterectomy and carotid stenting with filter protection or flow reversal, Maarten Plessers
- Mid-term outcome of hybrid revascularisation procedures for TASC C and D aorto-iliac and femoropopliteal disease, Vassilios Zymvragoudakis
- What is the best solution for in-stent restenosis after SFA stenting: redo-PTA by use of POBA, drug-coated balloons or stent-grafts, Koen Keirse
- Adjunctive procedures to lower risks of neurovascular complications in thoracic endovascular aortic repair: experience in the Oxford Regional Vascular Unit, Francesca Fratesi
- Thrombosis of femoral-popliteal graft treated with ultrasound assisted catheter – directed thrombolysis and stenting, Cinzia Moncalvo
- Abdominal aortic aneurysm repair increases cardiovascular risk, Vimal Gokani
- Does reintervention influence the late results of EVAR? Diletta Loschi
- Early outcomes of patients transferred with ruptured suprarenal aneurysm or dissection: implications for the organisation of vascular services, Nung Rudarakanchana
- The Re-entry catheter system for subintimal recanalization of chronic total occlusions in femoropopliteal arteries: primary safety and efficacy results of the Re-ROUTE trial, Koen Keirse
- Percutaneous recanalization of occluded renal arteries in patient with resistant hypertension and high rennin activity, Ivo Petrov
- Vertebral stenting, Yreta Tasheva
- Intervention for acute lower limb ischemia: a 3 year single center experience, Kelsuke Fukuda
- Which stent graft system can be used for challenging anatomy in EVAR cases, Koen Keirse
- Three cases confirming the appropriateness of “centralization of flow concept” in aortic dissection, Ivo Petrov
- Artificial intelligence algorithms to quantify arterial calcification, Ahmed Aber
- Carotid Artery Stenting: is it possible to reduce complications? Cinzia Moncalvo
- Endovascular repair of mycotic thoracic aneurysm, Baris Ozdemir
- Is there a place for a prosthesis in the treatment of aortic graft infection? Sebastien Deglise
- Overcoming difficult CTO increasing the applicability of endovascular intervention to patients with challenging Re-entry, Ahmed Tawfik

EPosters

- Carotid artery stenting with cerebral embolic protection: a single-center initial experience, Pablo Nuñez
- Microcoil embolization for an acute bleed from ruptured middle rectal artery aneurysm, Vivek Vohra
- Atherosclerotic plaque analysis in the lower limb may help predict outcome following endovascular intervention, Vassilios Zymvragoudakis
- Use of drug-coated balloon angioplasty as first line treatment for all femoropopliteal lesions: twelve month results, Koen Keirse
- Percutaneous exclusion of subclavian artery aneurysm with endoprosthesis, Cinzia Moncalvo
- Revascularization of the plantar arch: its impact on foot salvage in critical limb ischemia, Mosaad Soliman
- Interventional treatment of an intracranial left vertebral artery stenosis in the state of contralateral vertebral artery occlusion, Svetlin Tsonev
- Percutaneous exclusion of renal artery aneurysm with endoprosthesis, Cinzia Moncalvo

Notes

- Carotid artery stenting with cerebral embolic protection: a single-center initial experience, Pablo Nuñez
- Microcoil embolization for an acute bleed from ruptured middle rectal artery aneurysm, Vivek Vohra
- Atherosclerotic plaque analysis in the lower limb may help predict outcome following endovascular intervention, Vassilios Zymvragoudakis
- Use of drug-coated balloon angioplasty as first line treatment for all femoropopliteal lesions: twelve month results, Koen Keirse
- Percutaneous exclusion of subclavian artery aneurysm with endoprosthesis, Cinzia Moncalvo
- Revascularization of the plantar arch: its impact on foot salvage in critical limb ischemia, Mosaad Soliman
- Interventional treatment of an intracranial left vertebral artery stenosis in the state of contralateral vertebral artery occlusion, Svetlin Tsonev
- Percutaneous exclusion of renal artery aneurysm with endoprosthesis, Cinzia Moncalvo
Lundi 8 juin 2015

Session paramédicale
Rez de chaussée

COMITÉ SCIENTIFIQUE
Julien POOR, Service d’angiographie, Clinique Louis Pasteur, Essey-Les-Nancy
Florian ROBERT, Service d’angiographie, Clinique Louis Pasteur, Essey-Les-Nancy
Muriel ZAGO, Cadre du bloc opératoire, CHU Bordeaux

FACULTÉ
Max Amor, Radiologue Interventionnel, Clinique Louis Pasteur, Essey-Les-Nancy
Marie Ellinger, Electrice Marketing, Boston Scientific
Fabienne Lamniai, Manipulatrice en Electro Radiologie Médicale, CH Nantes
Karine Malo, Infirmière IBODE, CHU Bordeaux
Julien Poor, Manipulateur en Electro Radiologie Médicale, Clinique Louis Pasteur, Essey-Les-Nancy
Florian Robert, Manipulateur en Electro Radiologie Médicale, Clinique Louis Pasteur, Essey-Les-Nancy
Robert Valette, Manipulateur en Electro Radiologie Médicale, La Timone, Marseille
Magali Vial, Infirmière IDE, CHU Bordeaux

10.00  Café d’accueil sur le hall d’exposition

10.30  • Le point sur les dernières recommandations de revascularisation, TBD
10.45  • La radioprotection en salle de cathétérisme, Robert Valette
11.15  • L’utilisation d’un amplificateur mobile dans une salle conventionnelle lors de la prise en charge d’endoprothèses vasculaires : comment adapter la radioprotection au bloc opératoire ?, Michaela Dupont
11.30  • Acquisition 3D et fusion en salle hybride pour les revascularisations périphériques, Fabienne Lamniai, Sophie Pichon
11.50  • Discussion

12.10  • Les ballons d’angioplasties périphériques, Marie Ellinger
12.25  • Drug Eluting Devices-aspects spécifiques, Karine Malo, Magali Vial
12.40  • Discussion

13.00  Déjeuner sur le toit terrasse

14.00  • La thrombolyse artérielle in situ le point sur les bonnes pratiques, Florian Robert
14.15  • Les moyens de protection cérébrale en angioplastie carotidale percutanée, Max Amor
14.30  • Les abords artériaux non conventionnels en angioplastie périphérique, Julien Poor
14.45  • Préparation du matériel endovasculaire/anticipation nécessaire, Karine Malo, Magali Vial
15.00  • Points de ponctions artérielles/anticipation de la préparation et installation du patient, Karine Malo, Magali Vial
15.15  • Complications hémorragiques et complications des points de ponction, Karine Malo, Magali Vial
15.30  • Discussion

16.00  Pause sur le hall d’exposition et fin des sessions

MEETING VENUE
Radisson BLU Hotel

The Complete Embolization System

Ruby Coil
- Widest range of sizes
  2 x 1 cm to 32 x 60 cm
- Enhanced softness profile

POD
- Confident vessel occlusion
- Precise anchoring segment
- Soft packing segment

18 mm SPLENIC ANEURYSM

SPLENIC ARTERY SACRIFICE

On demand detachment.
High-flow microcatheter compatible.

Product availability varies by country.
